ADVERTISING

Carter Realty lists properties through the MLS (Multiple Listing Service) in order to take advantage of our national network of Realtors. All listings are included on our very own website, CarterNC.com, and we advertise our listings on a diverse array of classified and real estate websites. We have found that our advertising program efficiently and economically provides significant lead generation and high-quality prospects.

Some of our current advertisements can be found at the following websites. These sites have proven web traffic and high rankings with major search engines — simply typing the address of one of our MLS listed properties into a search engine such as Google will provide quick and easy access to pictures and information about the property.
